### ABOUT ME

My name is Piotr Pospiech, a frontend developer from Poland based in Aarhus, Denmark. I recently completed my Web Developer Bachelor's degree in January 2023, after finishing my Multimedia Design AP in 2021. With over 2 years of industry experience, I have worked with a diverse range of companies, including startups, digital design agencies, and big eCommerce consultancies.

I am a curious, driven and passionate individual who is always eager to learn and grow. I have great communication skills meaning I can easily adjust to different team dynamics and communication styles. I am also a supportive team player and can take initiative when necessary.

Overall, I am dedicated to my work and strive to deliver high-quality results for my clients and employers.

## PERSONAL INFORMATION

In my free time I remain an active person I do a lot of sports like running, going to the gym, playing volleyball or football.

Besides sports I also indulge in various side activities like public speaking club Toastmasters reading books, video games or hanging out with my friends.

I would consider myself relatively open person I find myself well in a new surroundings and have a ease of establishing new relationships. I am detailed, focused and driven person that functions well in many team dynamics where I can take a different roles depending on the demand.
